

## Will your car match these Oakland Upkeep Figures?

Accurate records kept by Oakland in Cleveland showed an average upkeep cost on Oakland 6-44's of

**\$8.06 per year**

**Oakland "6"**

### The "Mileage-Basis" Plan

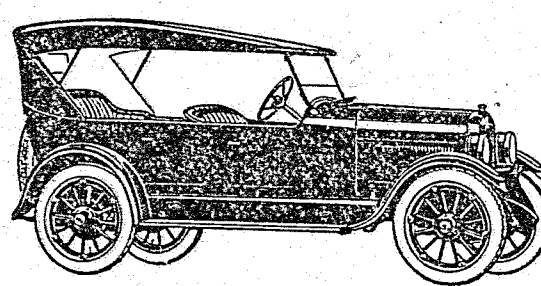

Main Bearings—40,000 miles or more without attention.  
Valves—15,000 miles or more without need of grinding.  
Connecting Rods—40,000 miles or more without attention.  
Cylinders, Pistons, Rings—Guaranteed in writing 15,000 miles.  
Gas Mileage—20 to 25 miles per gallon.  
Tires—15,000 to 25,000 miles per set.  
Transmission, Axles, and Major Parts—Life of the car.

IF YOU would know the quality of a motor car—look to its upkeep costs! In Cleveland last year it cost an average of only \$8.06 per year for upkeep on Six-44's! Other cities and towns report similarly low averages!

Another excellent indication of quality is found in a motor car's resale value. Try to buy a used "Six-44"—and you'll be surprised at the high price it commands.

These definite and actual evidences of the superior quality of the Oakland car explain why Oakland is enabled to offer its remarkable "Mileage-Basis" Plan!

Before you buy a car—come in and see the Oakland! You will find it beautiful, comfortable, and powerfully and genuinely economical—and you'll know the minimum number of trouble-free miles you can expect it to give you!

### NOTICE OF FORECLOSURE OF MORTGAGE

Whereas Frank L. Miller, of Brownfield in the County of Oxford and State of Maine, did on the ninth day of August, 1919, by his mortgage deed of that date duly executed, acknowledged and recorded in Oxford Western District Registry of Deeds in Book 109, Page 248, convey in mortgage to Charles E. Whitman, then of said Brownfield but now deceased, a certain lot or parcel of land with the buildings thereon situated in said Brownfield, and bounded as follows:

Being on both sides of the road leading from Fryeburg to East Brownfield village the present homestead farm of said Miller and the same conveyed to him by Freeman H. Day by deed of December 24, 1912, recorded in said Registry in Book 102, Page 249, and bounded on the north by land of heirs of the late Loring B. Allen, on the west by said Giles land, on the south by land of E. E. Phillips, land of E. D. Walker and land of G. G. Mansfield, and on the east by Saco River.

And whereas the conditions of said mortgage have been broken.

Now, therefore, notice is hereby given that I claim a foreclosure of said mortgage in accordance with the statute in such cases made and provided.

Dated at Brownfield this 30th day of April, 1923.

EDITH M. BRADBURY  
Administratrix of the goods and estate which were of Charles E. Whitman, deceased intestate.

**MORE MEN THAN WOMEN HAVE APPENDICITIS**

Medical reports shown men are more subject to appendicitis although many sudden cases occur among women. It can be guarded against by preventing intestinal infection. The intestinal antiseptic, Adler-i-ka acts on BOTH upper and lower bowel, removing all foul, decaying matter which might cause infection. It brings out matter you never thought was in your system and which may have been poisoning you for months. Adler-i-ka is EXCELLENT for gas on the stomach. Frank Kimball, Druggist.

## CHANGE OF LIFE LOSES TERRORS

For Women Who Rely upon Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking

Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do all my housework for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 55 Union St., Greenville, Pa.

Many letters similar to this have been published testifying to the merit of Lydia E. Pinkham's Vegetable Compound. They are sincere expressions from women who describe as best they can their feelings before and after taking this well-known medicine.

Many times they state in their letters their willingness to answer women who write them. It is an offer dictated by gratitude and a desire to help others.

## Where Are You Bound? In our Union Suits there is no binding

Every wearer of underwear knows that when a Union Suit takes the notion into its seams to pinch, that it can be as binding as a first mortgage.

But every man who wears one of our Union Suits knows that it couldn't bind if commanded by the government.

The difference is in the fit—and here you have the reason why we sell so much Underwear year after year.

But the point is—if you buy one of our union suits you're bound to get a fit. They are priced right.

## SPECIAL NOTICE TO OUR READERS

We want to give to our readers all the news of interest throughout Oxford County.

People are interested in the home news and that is the kind of news the Norway (Oxford County) Me., Advertiser wants each week to give its readers.

There are readers in the home town and there are readers who visit our town annually and there are others who live out of town who are exceedingly anxious to read the doings of their friends and acquaintances back home.

Send us the news, give us account of the gatherings of a public nature and otherwise, the accounts of the family parties and guests in the home. There are many local happenings that would be of interest. Hand to the regular correspondent of your town or send direct to the Advertiser office with the name of the sender.

We want all the home news and with your assistance we shall be able to make the Advertiser the home paper that it aims to be.

People who have once lived in our midst and who have now moved to other places frequently write us that the paper is like a "letter from home" or "second like the face of an old friend." The very news item which you might send in will help to make the "weekly family letter" of more interest. Send it in.

## DENMARK

Brine-Osgood  
A quiet but pretty wedding occurred at the home of the officiating clergyman in Bridgton on Tuesday, May 15th when Miss Laura Osgood became the bride of Arthur Brine. Both young people reside in Denmark. The single ring service was impressively read by Rev. W. A. Richmond of the Congregational Church. Immediately after the ceremony Mr. and Mrs. Brine left for parts unknown.

## No Joke.

Success, we're told, requires hard work. And that, no doubt, is true enough; still, to make good, you're gonna find, You also need a lot of bluff.

Evidently,  
"Dat Ann Eliza done got eight families to wash fur."  
"She needs a husband to manage her intrusts."

Harvester for Sugar Beets.  
Harvesting sugar beets has been facilitated by the invention of an Illinois man, and consists of a machine that tops, digs and boxes the product, according to the October Popular Mechanics Magazine. In operation, two shoes slide along the surface of the ground and carry a cutter which cuts the beet top at the required height, throwing the severed portion to one side. Following the topper, comes a digger, or uprooter, which removes the beet from the ground and carries it to the rear, where it is deposited in a box or basket.

Real Carefulness.  
A St. Louis girl who went to Meramec highlands for a swim was seen to stand on the end of the diving board and assume the correct position for a dive when she noticed that she had forgotten to remove her wrist watch. She stepped back, took off the time-piece, placed it in the pocket of her bathing suit and plunged into the water.

# Gum-Dipped Cords Gaining New Fame for Service 194% Sales Increase in Last Six Months Shows Trend Toward Firestone

The public has emphatically spoken. The popular preference in all territories is unmistakably the Firestone Gum-Dipped Cord.

A standard of service has been set by these famous tires without parallel in the past. It has brought a sales increase of 194% for the past six months over the same period of a year ago—the greatest gain in all Firestone history.

The Firestone Gum-Dipped Cord is the mighty achievement which has enabled Firestone to break the tremendous record of past Firestone success.

The tire buying public has been aroused to the

results in economical mileage of the Firestone process of double gum-dipping. The buying-swing toward Firestone shows how it has advanced the public's standard of tire value.

Ask owners about Firestone performance on their cars. Note the big taxicab fleets Firestone-equipped. Watch the new cars you see—just from the factories; Firestone Gum-Dipped Cords are seen everywhere in fast increasing numbers.

Get the maximum extra mileage that only the Firestone name assures you. Only by insisting on this name can you be sure of getting the genuine gum-dipped construction.

NORWAY ADVERTISER

LAST GREAT BATTLE  
SURRENDER FOLLOWED

Written at Camp of 17th Maine April 26, 1865 to the late Ephraim Brown by A. G. Charles, husband of Mrs. H. B. Charles who is writing a series of interesting stories of Norway in the early days, being printed in this paper.

Friend Brown:—At last I have commenced a letter that I ought to have written months ago, but which for several reasons has been delayed till now. I believe I have received three letters from you since I have written the first one just after we returned from the West last December and then we were so busy that I didn't write to hardly anyone, then I got one about the time I received my commission and I was thinking at the same time about going home and I was so uneasy and mixed up that I couldn't keep still long enough to write a letter, but now we have got through fighting for the present at least and have got over the bustle and fussing that always attends "going into camp." If you will excuse past neglect, I will try and make partial amends by telling you part of matters and things pertaining to the 17th Maine. When I returned from my leave of absence, I found they had sent all the extra Q. M. Stores to City Point and the settlers were ordered to leave in a few days. We got the long expected order on the morning of May 25th. We were ordered to pack up and be ready to move immediately, so we packed up, but lay around all day before the order came to move. About five o'clock the order came to move. We went just outside our picket line and formed in the rear of the 1st Brigade (we had been transferred to the 2nd Brigade a few days before) and lay there until midnight when we returned to Camp. We lost two or three men by chance shots. We stayed in camp three days. When we started again, and this time meant Petersburg and Richmond, with Lee's army included, though little did we think what the results would be when we started. We went across Hatcher's Run at the same place where we crossed when we went to the "Bull Ring." I think we went about five miles before we formed the line of battle.

After we got our lines all connected we commenced to move forward. We found nothing to oppose us that day of any consequence and at night we had driven them from two lines of breast work. In the afternoon of the second day our skirmish line got in sight of their main line (and it proved to be the only one they had on the flank until we got within a mile of Petersburg). After the usual amount of marching and countermarching they got the lines fixed to suit them and we went to work and built breast-works. We layed there till midnight when they routed us out and we moved to the left, and the next day found us in the same old Bull Ring. The Rebels threw a few shells at us but there was no one hurt in our Regt. I was on picket one day and night while we lay here and you could see the Reb. works plain from the picket line. I thought then that we should have to go back to Camp without accomplishing our object for I knew we could never take the works by direct assault. They were not so strong as those in front of Petersburg but there was a large open plain in front of them and they had four lines of those picked sticks for us to get through. On the morning of April 2nd word came that the enemy was falling back and we were ordered to advance and take the works in front of us, so at them we went but when we got there we found the Johnny's gone, but we kept on and went within a mile of Petersburg before we stopped. I tell you it seemed queer to be marching along and over the side of those works that we had lain and looked at so long. We formed our line and built some works that afternoon. The next morning we got up to find the Rebels gone again, so we started after them. We marched three days before we found them.

On the morning of the 6th we hadn't gone but a short distance before we ran into the rear guard and then commenced one of the greatest fights on record. We formed our line of battle and moved forward. We soon came upon a small body of the Greyhounds at a place called Centerville, but we charged on them driving them like sheep, capturing lots of prisoners, one cannon and some battle flags, and so we kept it up all day till just at sunset, we made one grand rush and got two pieces of Artillery, two hundred wagons and seventy prisoners. It was a little risky but it was fun. I tell you, we just kept those fellows on the run all day, and the road was strewn with everything you could think of. We lived tip-top, every house we came to the boys would clean it out, we got ham, flour, sorghum, hens, ducks, geese, and everything conceivable in the eating line. The boys got any amount of clothing out of the grain. There was any quantity round with Major General's clothes on, we got some very nice blankets, the next day. They went about eight miles to Petersburg. The Rebels left at High Bridge to guard some guns. The next morning we started on, but didn't overtake the Regt. till late at night. Our Company marched about thirty miles that day, perhaps I wasn't any tired.

On the morning of the ever memorable 9th of April we started about seven, and marched four or five miles when the column stopped and pretty soon we filed into a field and stacked arms, we thought the trouble was in the road as we had been bothered several times before in that way. We had heard that there was a flag of truce out but didn't believe it as we had heard that too many times before, then the report came that Lee wished to see Gen'l Meade or Grant, but we didn't believe that until we saw Meade go by in his carriage, then came the rumors of the surrender, pretty soon Meade came back, and in a few minutes a Battery just in the rear of us began to fire, then we knew it was true. In about a half an hour Meade came riding back with his Staff. He never said a word, but rode around among the troops, with his mouth wide open and swinging his hat. You had ought to have been there then Eph. such a sight I never expect to see again. It seemed as though the men were crazy. Caps, haversacks and coats were thrown into the air by thousands, bands playing, cannon firing and flags flying. About dark we strung out a little and camped for the night.

We layed there the next day, and the 11th we started on the back track, it was very slow, hard work, and it rained badly cut up and it had rained just enough to make the mud stick good. We were three days getting here. We are about three miles from Berkville Junction, have got a nice camping

ground and are having a good rest, don't have any drills or anything of the kind. The Major said he shouldn't drill until he was ordered to, for he thought the men needed rest more than they did drill. He said it is just about the same as when you left. Some of them were a little and some play as well as they ever will. We have sent for McDonald to come out and stay the rest of our term, so we shall have quite a band. The Co. has changed some. Han Stone came back just before we started on the campaign, and went into the Pioneer Corps. He is at Brigade Hd. Qrs. Estes came a few days ago. Mell Morton went away sick the 27th of Mar. and is at Fairfax Seminary Hospital.

Joe Burgess was wounded in the first charge we made April 6th, got a hole through his leg. It just grazed the bone behind the knee joint. We heard from him a few days ago, he was doing well then, the rest of the boys are about as you left them. Harding got out of the right as usual. He got a pass from the Doctor the first day and we didn't see him again till we got back to Farmville on our return. Capt. Joe is still at the Hospital and will probably stay there till we go home. Lieut. Crawford commands the Co., one of the 3rd Maine men and he is a first rate fellow. Capt. Verrill is on the Brigade Staff. I let out a little easy the other night about their making the band play last summer when we lay at the left of Fort Rice and the boys were mighty tickled I tell you. We had a meeting about getting ready for Mac, and some of the officers thought he didn't do just right last summer. When it came my turn to have a say I just went in. I told them that he was treated shamefully by the officer commanding the Regt. and by some of the line officers, and that I would have done just as he did. Verrill was there and I couldn't resist so I told them what kind of a place it was where they wanted him to play, and made us. I told them that it was all very fine for those fellows to draw out a hole where they were perfectly safe and make us stand and play where the men and officers too didn't dare to stand. I tell you Verrill looked three ways for Sunday. Do you remember how Capt. Faunce was down on Jim? Well he said that Jim had been abused.

There I guess I have scrawled enough for this time. If I have forgotten anything of importance, I will write it the next time. Remember me to all the good folks, and write when you feel like it and tell a fellow what you are about.

Yours truly,

A. G. Charles.

The world is wrong! We need a living wage, women's rights, a change of government, more taxes on the rich, employment insurance, the forty-four work week, repeal of the Volstead act, repeal of judges and let's pass some nice new laws!

So say the soap-box orators and others. But I say the world is only tired and needs a rest from the blatant mouthpieces of single-track minds.

One-half the physical jargon exercise of these pacifists expended on production of labor would long ago have made the old world grin with glee.

Fundamental economics teach that everywhere the loafer retards the effect of the worker, among laborers, artisans, executives and employers alike.

Theoretically each unit in the social structure pays for what it receives in productive labor of mind or hand; but multitudes in late years have been sucking a living by their wits and not paying in service or labor for what they received, reaping where they had not sown.

This class are too often our millennium agitators. They have never thought seriously of work.

Work will increase the wealth of the country, hasten and anchor prosperity, bring down the cost of living and bring happiness to its participants.

Why look farther? ~ Hamilton B. Wood.

Isn't that a pretty good doctrine? If everyone would work more and talk less we would all be better for it. But for some reason the "talk muscles" appear to be the last to become tired. It does not appear either, that the one with the most gray matter in his head can make the most talk with his mouth. It is very much the other way, and words come as freely as they do in the dictionary, and too frequently, with as little consciousness. But real work, be it brain or muscle, is what gets a man somewhere, and makes a nation good to live in and of influence in the world.—Judge O. A. Towne.

## Ask Me Again.

A few days ago a friend called me up to ask how to make a mint jelly, writes Russell Seeds, in the Indianapolis Star. On being assured that he was not joking, but really had the makings, I scented possibilities and sallied in with enthusiasm. I told him how to crush the ice fine and pour it into the tall glass, then put in a couple of sprigs of smashed mint and the granulated sugar and add a stiff thimble of genuine bourbon and shake it up, and then decorate the top with a bouquet of fresh mint and watch until the frost had formed on the glass.

"Thank you so much! Come down some time and we'll have one together."

But do you think I let him get away? On your life, no! They have slipped me that "some time" stuff for the last time. I have seen too many enchanting visions of house parties and week ends fade and die on the waiting list. I thanked him profusely and told him I'd be there in fifteen minutes. And I was!

## Jap or Chinese.

The eldest son of the mayor of Jeffersonville, who is about nine years old, is a shrewd observer and no doubt makes what his elders say. He can, however, find his own way of expressing himself. He was in a newspaper office a few days ago when an eastern "drummer" came in, showed his wares, and said he would call again. A discussion ensued in the office whether the visitor was a Chinese or Japanese, when Hiram spoke up: "He said he would come back. If he does, he is a Chinese, but if he doesn't come back you can know he is a Japanese." Evidently the Chinese have an enviable reputation in Hiram's judgment, for "truth and veracity."—Indianapolis News.

## DIVORCES AND ITS CAUSES

I think some action should be taken to stop the increase in divorce; the divorce evil seems to be on the increase everywhere. The American must wake up to the fact or sooner or later the Nation will suffer.

There are too many hasty marriages partly due to the contracting parties not giving the matter serious thought. The country is being filled with men and women whose lives have been blasted and all for the want of a little deep-seated thought and wisdom before marriage. Hasty and sudden marriages usually end with a family row, then the sudden and undreamed of departure of the emotional wife, then divorce.

Hasty marriage, false pride, no religion, immorality, deception and lies are the causes leading up to divorce. You find men who married when in poor or middle circumstances and who were very happy at the time, suddenly they reach high position of wealth, the social standing changes, pride gets the best of them, the good little wife is not good enough for him now, he seeks the company of other women, finally a crash comes, divorce follows and a blasted home is the result. There are many cases of this type.

Jealousy and hate are both diseases and when these terrible monsters get into action something disastrous is sure to occur.

Many cases of divorce are due to the lack of interest in the home on the part of the newly and hastily wedded parties. Many times the wife has an inflated idea of her social and financial standing and creates more expense than her husband's income can stand, the results in this case are the husband's part, then he begins to think he made a mistake when he married the girl and gradually the unexpected happens.

Any psychopathologist or alienist will tell you what a dreadful emotion jealousy is and I think people should fight against this demon and try hard to overcome its emotions, it is giving in to this and allowing it to master us that leads to the divorce courts in many cases.

People after marriage should try to fight against worry, which is nothing but fear, it is likely to bring personal misery, family trouble, discontent, lack of interest in the home and finally divorce. False pride is another curse eating the very heart and soul of many people, they do not want to be humble, they want to keep up with a false appearance and station in life far beyond their means.

About the worst individuals of them all are the persons, men or women, who are dissatisfied with life in general and who are always ready to carry tales to wife or husband, who are ever ready to put poison in the minds of others, who are always knocking some other person and using their vile tongues to blast some other more fortunate person, these blackmailers and scandal mongers are the cause of many divorces; people should not listen to these devils but should cast them aside.

Then we find the half witted specimen of male degenerate who has no brains, but a great gift of oratory, who is always seeking the acquaintance of married women. He is like the wolf seeking to destroy the homes of happy people. His prey is the married woman; this scoundrel is a menace and the sooner society and the community at large get rid of him the better for all. I find this type of male is the cause of domestic troubles leading to the divorce courts.

Theoretically each unit in the social structure pays for what it receives in productive labor of mind or hand; but multitudes in late years have been sucking a living by their wits and not paying in service or labor for what they received, reaping where they had not sown.

This class are too often our millennium agitators. They have never thought seriously of work.

Work will increase the wealth of the country, hasten and anchor prosperity, bring down the cost of living and bring happiness to its participants.

Why look farther? ~ Hamilton B. Wood.

Isn't that a pretty good doctrine? If everyone would work more and talk less we would all be better for it. But for some reason the "talk muscles" appear to be the last to become tired. It does not appear either, that the one with the most gray matter in his head can make the most talk with his mouth. It is very much the other way, and words come as freely as they do in the dictionary, and too frequently, with as little consciousness. But real work, be it brain or muscle, is what gets a man somewhere, and makes a nation good to live in and of influence in the world.—Judge O. A. Towne.

I hope and pray that America won't become like Rome in the old days, Rome fell owing to the disappearance of the wholesome family life, and disregard for the teachings of the church. The wholesome family life is the very foundation of our Government and we need it more now than ever.

Unnecessary and greatly exaggerated details of divorce cases as published by certain newspapers, have a bad effect on the minds of many weak-minded people who soon fall victims to some form of temptation and finally land in the divorce courts.

I have traveled a great deal throughout America, Canada and Europe and I can tell you right now I have never seen the divorce situation so bad anywhere as it is in this country at the present time.

Now that the women have the vote, I think the social structure will be greatly strengthened and improved and America saved from the cursed evil of divorce.

From the Smithsonian Detective Service, Boston, Mass.

Got the Toll-Keeper's Goat. A Dutchman riding a little cart drawn by a goat was stopped at the bridge by the toll-keeper.

"I got to pay toll?" said Hans.

"Yes; five cents to cross the bridge."

After an argument he paid the toll and went back again, only this time he had the goat sitting in the cart and he was drawing it himself. Out came the toll-keeper. "Here, you know you've got to pay five cents."

The Dutchman shook his head and pointing to the goat, said, "Don't talk to me—ask the driver."—Boston Transcript.

Mixed Religions. Doctor Grenfell after amputating the limb of a Roman Catholic patient wrote an appeal for a wooden leg to enable the man to move about. This was published in the Congregationist and read by a Baptist woman whose husband, a Methodist, who had worn a wooden leg, had just died. So the Methodist leg given by a Baptist appeal is now being used as a perfectly good interdenominational understanding.—The Christian Advocate.

## BOY SCOUT NOTES

## Demonstration and Exhibit

The Exhibition and Demonstration given by Troop No. 1, South Paris before the Parent Teacher's Association at the High School building on Friday night, was well worth seeing and created many favorable comments from the spectators. This Demonstration was in charge of Scoutmaster, Wm. H. Harriman.

The exhibit included Wood Collections, Indian Arrow Heads, Carpentry, Moths and Butterflies, Tool Chest, Knot Board, Troop Trophies, President Harding Steamer. The Demonstration of Scout work was carried off by Scouts Winfield Bennett, Harlan Hammond, Richard Crockett, and John Chandler. Signaling, Bandaging, Splinting, Fireman's Lift, Fireman's Drag, Stretcher Making were some of the things demonstrated.

Short talks on Scouting were made by George R. Morton, Pres. Oxford County Council and Executive Perham. Mr. Morton gave a short history of the movement and spoke of its value to the boys. Executive Perham's talk dealt entirely with the various things accomplished by the Scouts of Oxford County during the past 18 months. Scoutmaster Harriman finished with a talk on local scouting.

## Explore Ice Caves

Troop No. 1, Locke's Mills arrived on the shore of Overset Pond at six o'clock Friday night. Tents were set up and supper eaten. Rain set in and the scouts "turned in." The rain lasting all day Saturday made things bad but did not stop exploration parties and fishing trips. Two more scouts arrived Saturday on their 14 mile hike. The following morning the troop broke camp and started on an exploration hike to the Greenwood Ice Caves. This proved an interesting finishing touch to the trip. Home next.

This report of Hike from Troop No. 1, Locke's Mills, Irving Mason, A. S. M. is a credit to the troop and proves as ever that Locke's Mills is a Veteran Hiking Troop "Rain or Shine."

## Initiation Services

At the meeting Thursday night, Troop No. 1, Bethel held an initiation service for two new members. Twenty-four members were "on deck." Scoutmaster Oliver was in charge for the evening assisted by Executive Perham.

The successful finish of the Relay Race was discussed and remarks made in regard to Bethel's successful participation. The Initiation came next with its outstanding features—Christening, Down the Trail to Home Sweet Home, Aeroplane Ride, and Kissing the Book.

Following this part of the program came one better. Scoutmaster Oliver, Chief cook served Cocoa and Doughnuts to the troop. Each scout did his share with warm hearts as a result. Athletic sports followed with a new game introduced that did the evening up brown.

## Hold Special Meeting

Twenty-two First Class Scouts from Rumford and Mexico troops were on hand at the meeting held at the Municipal Building, Rumford, Wednesday night. This meeting, the first of its kind, was in charge of Executive Perham. Scoutmasters Arthur J. Welch and S. E. Street attended.

The following matters were enthusiastically discussed—100 Mile Relay Race, The Round Up, The Spring Rally (held at Dixfield Athletic Field on Friday and Saturday—June 15 and 16), the Wild River-White Mt. Hike (June 18-23), Western Maine Scout Rally—June 30th (held at Auburn), the Oxford County Scout Camp (July 8th-Aug. 19th), the Exhibit at the Oxford County Fair, and the Fall Banquet for First Class Scouts. The necessity for a high standard in Merit Badge work was emphasized with the statement "Do your Merit Badge work 100% or leave it alone."

First Class Scouts "on deck"—Thomas Gregor, E. Budge, P. Jenkins, L. Flannigan, R. Seymour, B. McConaghy, P. Gallant, H. Fernald, C. McLennan, G. Foley, V. Broomhall, D. Newton, S. Anderson, H. Henry, C. Henry, H. Anderson, R. Kero, Tony Povoltz, Gordon Williams, P. Strout, Francis Keyo.

Spring Rally to be Held at Dixfield. The 1923 Spring Encampment of Oxford County Boy Scouts will be held at Dixfield Athletic Field on June 15 and 16th. This is the Big Spring Rally of the year and bids fair to be a record breaker. Dixfield extends a welcome hand to every scouting town in Oxford County.

This rally comes at the finish of the school year. The official program starts with the Council Fire on Friday night. Speeches, Eats, Singing etc. will make this affair one to be remembered. Friday afternoon will consist of Registering up and setting up of Tents. All troops possible will bring tents for the overnight stay—the rest will bunk beneath the grand stand in case of rain.

Saturday will open with Morning Run, Breakfast, Parade through Dixfield, Athletic Sports, Dinner, Speech Making. The Scouting Program will take up Knot-Tying, Bugling, Fireman's Lift Race, First Aid Demonstration, Stretcher Race, Signaling Race, Cooking Exhibition, Firemaking by Sticks, Message Relay (1/4 mile distance—4 men to a team), Pyramid Building.

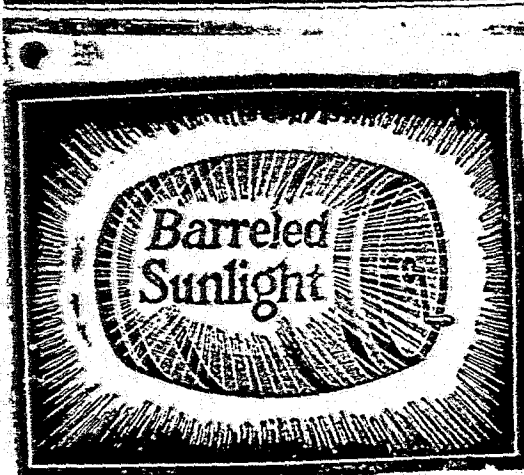

Every troop in Oxford County is expected to be well represented at this Rally. Every member possible from the local Scout Boards should be on hand for the Council Fire Friday Night and for the demonstration on the following day. Burn up some gas and oil for Oxford County Scouting. This whole affair is a "free for all" for everyone. The more the merrier—all visitors welcome.

## MONEY INTERESTS

Somerset Free Press: We hear a good deal these days about the "money interests," "fighting the money interests," etc. Now, getting down to brass tacks, what are the "money interests" of this country? They include not only the big corporations of transportation or industry, not only the financial institutions, but also all who have invested their securities, every person who has money in banking institutions as an investment, everybody who owns a house, a home or a piece of land, everybody who works faithfully at any employment and prudently manages his wages, and everybody who has got anything, or hopes to get something in return for useful service. Not included are those who expect something for nothing, who want to get a good day's pay for a poor day's work, and those who expect to live and prosper without rendering any useful service—a mighty small minority.

There will be a dance at the Grange Hall, Welchville, Saturday evening, May 26. See ad.

### Sunlight for Sanitation

The following are some of the logical uses for Barreled Sunlight, the glossy white tile like finish paint for making rooms at home more cheerful at very low cost.

Bathrooms Pantry  
Kitchens Attics  
Stairways Closets  
Laundry Closets  
Nursery Garage

It is superior to other paints for these purposes as it is cheaper than enamel, easier to apply, does not crack or scale, can be washed and is absolutely sanitary as it contains no lead.

### Another Thankful Woman

Not long ago a woman on Lamson St., East Boston (Mass.), gave out a praise-worthy letter which appeared in newspapers. She mentioned how thankful she was for having been told about a constitution medicine known as Dr. True's Elixir.

Now another resident, Mrs. Rogers, of 108 Falcon St., East Boston, writes: "I still have Dr. True's Elixir, for it surely benefits me; I have a good appetite and eat everything that I want. I could not get along as good as I do if I did not take Dr. True's Elixir. It is surely a wonderful medicine. I never felt any better than now since I took the Elixir."

In East Boston and everywhere else there are women, men and children who also, can be made better in health by using Dr. True's Elixir, the True Family Laxative and Worm Expeller. A favorite laxative for over 71 years! 40c, 60c, \$1.20.

### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions.

HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

## \$45,000,000 Worth of Studebaker Big-Sixes in 1922

The public paid more than forty-five million dollars for new Studebaker Big-Six automobiles in 1922, buying more of this model than of any other car selling in the same price field.

In the entire world there were only eleven other automobile manufacturers whose total sale of all models equaled the sale of Studebaker Big-Sixes for 1922, and no other manufacturer sold as many cars of the Big-Six class. In addition to the Big-Six, Studebaker builds the Special-Six and the Light-Six in large volume.

For the first quarter of 1923, Big-Six sales showed an increase of 70 per cent over the same period of 1922, evidencing the growing popularity of this model. Big-Six popularity is the result of Big-Six superiority. Materials and workmanship are unexcelled in any car at any price, and unequaled in any car at the Big-Six price.

With its long 126-inch wheel base, big 4 1/2-inch tires, heavy frame, scientifically distributed load, long Studebaker-made springs, the Big-Six Speedster rides more comfortably than most cars selling at much more money. Its 3 3/4 x 5 motor delivers a world of power, plenty of speed and a quickness of getaway hard to equal.

The price is the result of quantity production.

The name STUDEBAKER is assurance of quality. It has stood for high grade transportation for seventy-one years.

Two extra wheels complete with tires, tubes and tire covers. Trunk and dust-proof cover. Nickel-plated bumpers, front and rear. One-piece, rain-proof windshield. #### A Strange Ride

John and I fitted a small mast and a sail in our rowboat. Then we went out on the lake to try it. Everything went well until a strong wind sprang up. "A storm is coming," I cried. "Make for the shore." But the wind changed at the very moment we went to turn and we scudded off in another direction.

The boat turned at right angles and tipped over on the side but always righted itself again. The wind dropped a moment and we started to row for shore but again the wind foiled us and again we made off in another direction. I looked out onto the lake and saw the white caps on the top of the waves roll at us, then I shouted to John to hold fast and I cut the sail away. In a moment we were turned around by the waves and were going at a frightful pace. Then we struck and were thrown high upon the bank. That's all I remember for everything went black. The next thing I remembered was that John was bending over and spilling cold water on my face and then a whole hailful struck me and I rose. Then I found I had broken my arm. John was very much bruised but we managed to get home.

Next morning we came down to see where we had landed and to get the boat onto shore. We found we had got into Dead-Mans bay. We could find nothing but boards on the shore and a box floating in the lake. That noon we found the sail and mast on the shore.

#### An Unexpected Adventure

John and I fitted a small mast and a sail in our rowboat. Then we went out on the lake to try it. Everything went well until a strong wind sprang up. "A storm is coming," I cried. "Make for the shore." But just then the wind changed and we headed for the middle of the lake. I ran to the sail but it was nailed to the boat and we had left the hammer on shore. We had nothing but a paddle to steer with. John, who was younger was so overcome with fear that he could not do hardly anything. All of a sudden a larger wave wrenched the paddle from my hand, the boat swung sideways to the waves and capsized.

We were both good swimmers and so we swam from under the boat and held on to the side with all our might. On a calm day we might have swam to shore but in the storm it was impossible.

We had been hanging on to the boat for about two hours. The storm which was the worst of the season was beginning to calm down. We were so cold that it took all our energy to hang on. It was growing quite dark, all at once we heard the clug-chug of a motorboat. Then the strong ray of a searchlight shone upon us. I knew at once it was the lifesaving patrol boat.

Half an hour later we were in dry clothes explaining our adventures to the life-guarders. We heard the purring of a large auto and soon father and mother drove up. They had been visiting and had not noticed the storm.

#### The Secret Post

Phoebe Cobb

I am an old, old stove, and I have lived in the schoolroom for many, many years. During my life I have seen queer things happen. One hot day in June when the windows and doors were all open I heard a queer conversation between two men. One was very tall and slim and the other was very fat and short.

"Well, now yer got the money what be yer going to do with it?" inquired the fat man.

"Well, as I said before, I used to go to school in this place and I know where there is a secret door in one of the posts in the room, although you wouldn't know it because it is out in the shape of a knot of wood and all you have to do is to press this knot and it will open up," said the other fellow in much better language.

"Well," I drawled the short fat fellow, "Just hide it and have it done with before they are on our trail. So they came in and walked up to the post and pressed a knot and sure enough it opened and he put the money in and went out and I never saw either of them again, though I imagine I should have if the following had not happened.

The next day the teacher was going to give a boy a whipping because he had been throwing spit balls. It happened that this boy sat by the post and as he was shrinking away from the teacher he touched the knot and the door flew open and to their surprise a big bag tumbled out. On opening it they found money and bonds and receipts. By the receipts they found it belonged to a rich man that lived down the street and they returned the money to him. But I guess all the boy cared about was that he didn't get his whipping.

### Two Inch Single One Time

"Much of the fault that is found with local advertising can be traced back to some fault finder who placed a two-inch, single column, one-time advertisement in the local newspaper—and then expected the people to come in and take the goods away from him."

That is like trying to pull off a base-ball game with only one inning.  
Advertising in local newspapers is profitable to local business men when it is done correctly and run continuously."

### SUPREME JUDICIAL COURT

Court is in session at Rumford with Hon. Charles J. Dunn, justice presiding. The grand jury finished its work quickly and the following indictments have been made public:

Town of Hartford, neglecting a highway. Maggie Martin, larceny.

Paul Rickett, selling mortgaged property. James A. H. Assault with intent to kill. Eugene Gore, keeping and depositing liquor. Tony Rossi, larceny.

Zephaniah Thibodeau, assault. Tony Albright, search and seizure. Levi Belle, larceny.

**Cedric Judkins Found Not Guilty**  
The case of Romuald Paradis of Rumford vs. Cedric Judkins of Upton was tried Friday. This was an action for damages for assault, and was one of a number of actions resulting from an incident at Upton last season. Judkins, who was a deputy sheriff, stretched a chain across the road to stop suspected rum runners. Paradis struck this chain with his car, damaging the car and injuring him. Judkins searched the car, but found no liquor. The jury was out only a short time before returning a verdict for defendant. Albert Bellevue for plaintiff. Alton C. Wheeler for defendant. An appeal will be taken.

At a previous term there was a trial of a suit brought by Paradis against Judkins to recover the value of the car. This also Paradis lost.

**Josiah Thurlow Given Verdict**  
Josiah A. Thurlow of South Paris was found guilty of anti negligence in an action brought by John L. Wood of Norway. The case was an outcome of an accident on the highway between Norway and South Paris, December 6, 1922, when a Briscoe touring car operated by the defendant, and a team driven by Mr. Wood, a Singer, Sewing Machine agent, with a passenger, collided. Two thousand dollars damages was asked.

Mr. Wood alleged the defendant was on the wrong side of the highway, and operating his car with one headlight extinguished. He further alleged the defendant was driving at high speed and road and weather conditions warranted.

Mr. Thurlow denied the charges and furthermore alleged the Wood team was on the wrong side and without lights. He claimed to have used every precaution but failed to see the team until a few seconds before the impact.

Mr. and Mrs. Wood testified to their position in the highway and to noticing one headlight on the Thurlow car which appeared to be zig-zagging at high speed across the road as it approached from South Paris. Mr. Wood affirmed he guided his horse to the right and was practically in the ditch when they came together. The shock hurled Mr. Wood completely over the auto, according to his testimony, and he received severe injuries. Mrs. Wood was thrown some distance and also received injuries and a nervous shock. Testimony showed the horse sustained broken legs and was killed by Sheriff Harry D. Cole. The carriage and automobile landed in Norway Pine Grove Cemetery against the fair ground fence, both vehicles were damaged.

Walter S. Chandler testified to being the first person on the scene after the crash and described the location of the car and the horse and carriage. Harry D. Cole, George Coffren and Fred North all of South Paris, described conditions just before and after the accident. Mr. Wood admitted his carriage lamp was not burning; claiming it went out when he reached the center road from Pine Grove, Norway. For this reason he said he was driving on his extreme right to avoid possible trouble.

The case started Monday afternoon at 3 o'clock with the testimony on record in two hours. The case went to jury Tuesday forenoon. Alton C. Wheeler for the plaintiff and Wilfred G. Conary for the defendant.

**OXFORD**  
Cyrus T. Wardwell of Mechanic Falls was a visitor in town on Sunday. Mr. Wardwell has been spending several weeks with relatives in Massachusetts.

George Siders and wife of Woodfords were guests of Hattie Farnham on Sunday.

**John Burns**  
John Burns, a life long citizen of Oxford, passed away at the home of his daughter, Mrs. Emma Pike on High St., Saturday morning, after a long illness. The funeral was Monday morning, attended by Rev. C. G. Miller of South Paris.

The Sunday evening service of the Methodist Church was held at the home of Mr. and Mrs. A. J. Holden and Miss Harriet Andrews, as Miss Andrews is the oldest member and has been a constant attendant until confined to her home since last fall by lameness. Her last words were an interesting talk on "Motherhood." Quite a number were present.

Mrs. Eliza Farwell has a new car. James Cook visited his father-in-law, Mr. Cloudman of Gorham, recently, the old gentleman is 96 years of age and still active, doing some work around the farm.

**Giving Good Tests**

Word has been received from B. F. Under of New York that he will be unable to come to Norway at the usual time for fishing as planned because of an accident. He says, "While taking a stroll on Broadway Tuesday evening, May 8 with the madame, I had the misfortune to step on something and fall, breaking the lower half of my damaged knee cap. Luckily there was a crowd of young fellows to pick me up and help me to a taxi, so I got home fairly easily. The doctor says he doesn't think the ligament between the two pieces of the kneecap is much torn and it may be that it will only have to lay up until the present break has united, that will be some weeks of course. I am disappointed at not being able to get up to Norway as planned. However if the break heals quickly and complications do not set in, I may be able to come up late in the summer."
